

NUR SABRINA BALQIS BINTI ZAIDI

WEB/FRONTEND DEVELOPER

+6016-6137432 | sssabinabalqis@gmail.com | Petaling Jaya | [linkedin.com/in/sabrina-balqis](https://www.linkedin.com/in/sabrina-balqis)

SUMMARY

Passionate **Web / Frontend Developer with UI/UX focus** – I turn designs into live, responsive, and interactive websites. Redesigned a live company website (APEX ACADEMY) using PHP, TailwindCSS, HTML, and JavaScript, improving layout consistency and user navigation. Experienced in real-time web interactivity, design-to-code workflows (Figma), and cross-team collaboration. Looking for a **Junior Web / Frontend Developer** role to build beautiful, functional web applications that users love.

WORK EXPERIENCE

IT Business Analyst

Apex Equity Holdings Berhad | Feb 2026 – Present | Petaling Jaya

- Track IT project risks, cybersecurity compliance, and KRI reporting to management.
- Coordinate Vulnerability Assessment & Penetration Testing (VAPT) — handling, analysis, and remediation tracking.
- Support 2FA post-deployment testing and internal COB project tracking.
- Respond to Bursa Malaysia & Securities Commission (SC) inquiries on IT security, risk, and compliance.

IT Intern (Internship) → Converted to Full-Time

Apex Equity Holdings Berhad | Aug 2025 – Jan 2026 | Petaling Jaya

- Frontend/UIUX Developer for APEX ACADEMY: redesigned UI using PHP, TailwindCSS, HTML, JavaScript — improved layout consistency, readability, and user navigation.
- Applied frontend design principles focusing on clean aesthetics and user-friendly navigation.
- Coordinated SFTP & PGP Keys (UAT) with Vendor for CFD white-label implementation.
- Received full-time offer upon internship completion.

PROJECTS PORTFOLIO

• FloralPetals System (Flower Bouquet Custom Ordering System) – 2025

Java, HTML, CSS, JavaScript, MySQL, JSP, Servlet

- A web-based e-commerce platform where customers can design personalized flower bouquets by selecting from a variety of flowers, wrapping styles, ribbons, and materials.
- The system includes real-time bouquet preview, order summary, and checkout features.

• Apex Academy (AA) – 2025

PHP, TailwindCSS, HTML, JavaScript

- Redesigned and enhanced UI components to improve layout consistency, readability, and user experience.
- Applied frontend design principles focusing on clean aesthetics and user-friendly navigation.

• IoT Garbage Monitoring System – 2024

Python

- A smart waste management system that uses IoT sensors to monitor garbage bin fill levels in real-time.
- Sends notifications to waste collection teams when bins are nearly full, reducing overflow and unpleasant odors.

• GlamourPalette Website – 2023

Java, HTML, CSS, JavaScript

- A fashion website that helps users find outfit ideas for everyday and seasonal looks. Users can also mix and match clothes item like pants, shirts, caps, and shoes.

EDUCATION

- **Bachelor of Computer Science (Software Engineering) with Honours**
Universiti Malaysia Terengganu | Oct 2022 – Jan 2026 | 21030 Kuala Terengganu
